**USAG Grafenwoehr Motorcycle Safety Training Schedule
FY 08**

**NOTE: EFFECTIVE IMMEDIATELY MSF COURSE
REGISTRATION WILL BE CENTRALLY MANAGED BY
IMCOM-E SAFETY**

USAG Grafenwoehr will be hosting Motorcycle Safety Foundation (MSF) approved training at the motorcycle training range located on Camp Kasserine, Grafenwoehr Training Area. The Experienced Rider Course (ERC) approved MSF course will be offered a minimum of monthly during the typical riding season. The Basic Rider Course (BRC) will be offered at Grafenwoehr on demand.

1. The Basic Rider Course (BRC) consists of 16 hours of combined classroom and practical instruction. This course of instruction is required for personnel applying for a first time USAREUR motorcycle operator endorsement and cannot produce a MSF completion certificate.
2. The Experienced Rider Course (ERC) consists of 5-8 hours of practical instruction and does not involve classroom work. Attendees should plan on being outside the entire day and dress appropriately. USAREUR personnel who either renew or apply for a motorcycle operator endorsement, have in their possession a MSF course completion card over 3 years old, will be required to attend this course before issuance of a permanent operator endorsement.
3. Motorcycle license applicants or renewals requiring MSF instruction will be issued a one or two day temporary operating permit by the Drivers License Testing Station providing that all other requirements are met IAW AE 190-1. Personnel, who unsuccessfully complete the course, will be asked to return at a later date to either retake the ERC or complete the 2 day BRC. Training will be conducted on the scheduled dates unless a condition exists that would make instruction unsafe. All of the scheduled courses have two instructors and a maximum of 12 attendees per course. See schedule and registration link below.
4. Winter weather in the Grafenwoehr/Vilseck area normally precludes holding motorcycle safety training due to hazardous road conditions. Normally, training will commence at the end of March and conclude at the end of November.

USAG Grafenwoehr Motorcycle Safety Training Schedule FY 08

5. Rain conditions will not cancel scheduled instruction and riders need to dress appropriately (IAW AE 190-1). Improperly attired riders and motorcycles, that do not meet equipment standards IAW AE190-1 or are deemed mechanically unsafe by failing a T-CLOCS inspection, will not be allowed to participate. Classes start promptly at 0900. Late attendees will not be allowed to participate!

Grafenwoehr – Camp Kasserine training course. A map to Camp Kasserine is shown on the following pages.

Commander, USAG Grafenwoehr encourages contractors, licensed dependents, and local national employees to attend these courses as space permits. **The web address for information concerning training dates for the ERC and BRC at all Army installations in Europe with online registration instructions is:**
